

UX/UI Designer

Location: Oxfordshire
Type: Permanent
Salary: Dependent on experience

Torpedo is an award winning creative agency based near Oxford with an impressive list of clients. Digital is at the core of everything we do and we're looking for a talented UX/UI Designer to join our established UX team.

The role and responsibilities

- Defining user-interface design, navigation, structure, and hierarchy to serve as a blueprint for all web experiences including mobile and responsive
- Working with clients to understand their business models and goals, and presenting deliverables to both internal teams, clients and stakeholder groups
- Organising information by creating wireframes, sitemaps, work-flows, content inventories, specification documents, user scenarios and prototypes, along with thorough documentation and annotations of UI control behaviour
- Working on all sizes of project to ensure user centered design principles and methodology are consistently applied
- Analysing target audiences, user behaviours, key metrics, and functional specifications to execute user-friendly, goal-oriented solutions
- Defining the most effective nomenclature, taxonomy classes and calls-to-action for user interfaces and navigational elements
- Analysing site data to improve user experience post launch

Essential skills and experience you'll need

- At least 3 years commercial experience of user experience and user interface design working on medium to large, complex websites and mobile applications
- Expertise in prototyping and mockup tools such as Sketch, Moqups, InVision, Axure or Balsamiq to deliver UI wireframes, sitemaps, user journeys, data modeling and prototypes of varying fidelity
- Expertise in creating engaging user interface designs using tools such as Sketch, Photoshop, Illustrator, Principal
- Strong typography and layout skills are essential
- A confident communicator with good presentation and organisational skills
- Expertise in user experience design processes, techniques and methodologies
- Expertise in human interface guidelines, standards, and best practices as they apply to digital platforms
- Working knowledge of HTML5, CSS3, Javascript

Other desirable skills and experience

- Indesign
- Usability testing software and user testing experience.
